

Washtenaw Community College Comprehensive Report

ABR 209 Advanced Metal Shaping Effective Term: Fall 2017

Course Cover

Division: Advanced Technologies and Public Service Careers

Department: Automotive Body

Discipline: Auto Body Repair

Course Number: 209

Org Number: 14110

Full Course Title: Advanced Metal Shaping

Transcript Title: Advanced Metal Shaping

Is Consultation with other department(s) required: No

Publish in the Following: College Catalog , Time Schedule , Web Page

Reason for Submission: New Course

Change Information:

Rationale: new course based upon student demand

Proposed Start Semester: Fall 2017

Course Description: In this course, students will work individually and as a team to complete projects made from various types of metal. Areas of study will include: sheet metal shaping with hand and power tools over wooden "bucks," and layout of multi-piece projects through the use of cardboard templates, then transferred to metal. Procedures used in this class will consist of riveting, bell flanging, welding, English wheel and many others.

Course Credit Hours

Variable hours: No

Credits: 2

Lecture Hours: Instructor: 30 **Student:** 30

The following Lab fields are not divisible by 15: Student Min, Instructor Min

Lab: Instructor: 22.5 **Student:** 22.5

Clinical: Instructor: 0 **Student:** 0

Total Contact Hours: Instructor: 52.5 **Student:** 52.5

Repeatable for Credit: NO

Grading Methods: Letter Grades

Audit

Are lectures, labs, or clinicals offered as separate sections?: NO (same sections)

College-Level Reading and Writing

College-level Reading & Writing

College-Level Math

No Level Required

Proposed For:

Student Learning Outcomes

1. Analyze sheet metal grades and properties used in shaping and forming.

Assessment 1

Assessment Tool: Final exam.

Assessment Date: Winter 2020

Assessment Cycle: Every Three Years

Course section(s)/other population: All sections.

Number students to be assessed: All students.

How the assessment will be scored: Final Exams will be scored against the answer sheet.

Standard of success to be used for this assessment: 75% of the students will score 75% or higher.

Who will score and analyze the data: Department chair and instructors.

2. Perform sheet metal forming and shaping in accordance w/safety standards set by the department.

Assessment 1

Assessment Tool: Student Achievement Record.

Assessment Date: Winter 2020

Assessment Cycle: Every Three Years

Course section(s)/other population: All sections.

Number students to be assessed: All students.

How the assessment will be scored: Student achievement record will be scored using a departmentally-developed rubric.

Standard of success to be used for this assessment: 75% of the students will score an average of 3.5 of 5 (70%) or higher.

Who will score and analyze the data: Department chair and instructors.

3. Construct and assemble multiple piece metal projects.

Assessment 1

Assessment Tool: Student Achievement Record.

Assessment Date: Winter 2020

Assessment Cycle: Every Three Years

Course section(s)/other population: All sections.

Number students to be assessed: All students.

How the assessment will be scored: Student achievement record will be scored using a departmentally-developed rubric.

Standard of success to be used for this assessment: 75% of the students will score an average of 3.5 of 5 (70%) or higher.

Who will score and analyze the data: Department chair and instructors.

Course Objectives

1. Identify proper sheet metal thickness and grade.
2. Demonstrate the ability to apply fundamental principles of sheet metal shaping and forming
3. Construct templates from wood and cardboard for metal shaping.
4. Transfer templates to metal.
5. Demonstrate the ability to measure and layout complicated forming "bucks" for sheet metal construction.
6. Cut and shape metal according to template.
7. Locate and reduce surface irregularities on hand crafted metal panels.
8. Identify and apply proper welding equipment and consumables for joining sheet metal projects.
9. Fit and adjust multiple piece sheet metal projects.
10. Assemble a finished project according to the plan.
