

ANNEX – N: EARTHQUAKE

Although earthquakes of any significant magnitude are extremely rare occurrences in this area of the country, the possibility of one happening does exist.

If you feel severe tremors and believe an earthquake is occurring:

- Duck or drop down on the floor.
- Get under a sturdy table, desk or other piece of furniture.
- Avoid dangerous spots such as windows, hanging objects, mirrors, or tall items like book cases and file cabinets.
- Hold on to sturdy furniture and be prepared to move with it.
- After the tremors stop, evacuate the building.
- Assist others in evacuation.
