

Professional Licensing Disclosures

Federal regulations require Washtenaw Community College to publicly disclose, for each educational program designed to meet the educational requirements for a specific professional license or certification required for employment in an occupation (or advertised as meeting those requirements), information about whether program completion would meet those requirements in another state. These public disclosure requirements apply to programs regardless of their modality (on campus, online, and/or hybrid). For purposes of said disclosures, “state” includes the fifty States of the Union, as well as American Samoa, Puerto Rico, District of Columbia, Guam, U.S. Virgin Islands, Northern Mariana Islands, Marshall Islands, Micronesia, and Palau.

Washtenaw Community College makes every effort to ensure information about educational requirements for licensure and certification is current; however, licensure and certification regulations are frequently revised and subject to change at any time. All prospective and current students are encouraged to contact the applicable professional licensure/certification boards in their respective states for additional information regarding professional licensure and certification requirements, including but not limited to information regarding any non-educational requirements (such as work experience, background clearance, or examination by outside entities). The information below should not be construed as guaranteeing that any particular professional licensure/certification authority will approve a student’s application; nor should the information below be read to imply that other requirements for professional licensure/certification do not exist or that other requirements for professional licensure/certification have been determined to have been met by WCC’s program/course(s).

If you need assistance or have any questions, please contact the Office the Vice President for Instruction at 734-973-3348.

September 2023

Washtenaw Community College Professional Licensing Disclosures
